About CREATE's 2026 Voices in Action Pop Up

Join young people with lived experience, advocates, government representatives, sector leaders and practitioners for a youth-led conversation about rights, relationships, supports and collective action, and what it takes for young people to thrive while in care.

Voices in Action provides a truly unique opportunity for decision-makers to hear directly from young people, learn from their insights, experiences and expertise, and work alongside them to strengthen policy, practice and systems across Victoria and nationally.
