

# It's your decision: 'Listen to me' consultation artwork

In May the Office of the ACT Children and Young People Commissioner worked with CREATE Together to hold a YAG about what 'listening' really is. What we talked about is being put into a booklet for adults working in the OOHC system.

We would love to use your artwork as part of this!

If you would like us to use your art, you need to fill in this form to give us permission to put it in the booklet or use it in other resources we might produce. Your artwork might be used in printed resources or online.
